PROFESSIONAL SUMMARY

Possessing practical project experience in developing responsive, scalable web applications utilizing Java, Spring Boot, Hibernate (JPA), React.js, MySQL, and RESTful APIs. Proficient in object-oriented programming, MVC architecture, database design, and secure authentication protocols (JWT, Spring Security). Demonstrates expertise in producing clean, maintainable code and fostering collaboration within Agile environments; a rapid learner eager to contribute to enterprise-grade software development initiatives.

SKILLS

- **Programming Languages:** HTML, CSS, Bootstrap
- **Databases:** Structured Query Language(SQL)
- **Platforms:** MySQL, Visual Studio Code
- **SoftSkills:** Good Communication Skill, Team Player, Quick Learner, Artist

EDUCATION

Bachelor of Science in Information Technology (B.Sc. IT)

Ekmath B. Madhavi Senior College

Graduated 2024

CGPA: 7.43/10

Higher Secondary Certificate (HSC) - State Board

Ekmath B. Madhavi Junior College

Jun 2020 – May 2021

First Class

Secondary School Certificate (SSC) - State Board

Swami Vivekanand Vidya Mandir, Vishnu Nagar

Mar 2018 – Mar 2019

First Class

PROJECTS

Employee Management System

Technologies: Java 21, Spring Boot, Spring Security, JWT, Hibernate, MySQL, React.js, Bootstrap, RE

Developed a full-stack Employee Management System with secure, role-based authentication Employee user roles using Spring Security and JWT.

Designed and implemented RESTful APIs for employee, department, attendance, leave, and sa Spring Boot and Hibernate (JPA).

Built a responsive React.js frontend integrated with MySQL, enabling efficient data entry, retri across modules.

Take It – Online Food Delivery Platform

A full-stack food delivery web application that allows users to discover restaurants, browse food items, manage carts, and place orders.

Secure Authentication: JWT-based login and registration with role-based access.

Complete Ordering: Restaurant search, food filtering, cart management, and order placement.

Admin Management: Manage restaurants, food items, ingredients, availability, and order status.

Tech Stack: React.js, Java, Spring Boot, Spring Security, Hibernate/JPA, MySQL
